RailEasy™ Cable Railing System LEED Information

Recycled Content Defined:

"Pre-consumer" materials are generated by manufacturers and processors and may consist of scrap, trimmings and other by-products that were never used in the consumer market.

"Post-consumer" material is an end product that has completed its life cycle as a consumer item and would otherwise have been disposed of as a solid waste. "Post-consumer material" indicates the product was made with these materials that were recycled by residents and other businesses.

Subject Product:

RailEasy™ Cable Railing System

RailEasy™ Cable Railing System consists of 5/32" cable, cable tensioners, swivel ends and cable sleeves. Possible additional components include cable lag studs and stud assemblies.
