Happy Holidays from Atlantis Rail!

**ATLANTIS**<sup>®</sup>  
RAIL SYSTEMS

## Giving Back

At Atlantis Rail, we feel it is important to give back to the community especially during the holidays. This is why every year we hold a company "Toys for Tots" gift drive for children in need. Since the start of our company toy drive, we have exceeded our previous year donations. We encourage our customers to participate in the "Toys for Tots" drive this holiday season and those to come. For more information on where you can donate in your area, please visit: [www.toysfortots.org](http://www.toysfortots.org)

## NEW PRODUCTS

### Hand Swage Tool Rebate

#### Special Rebate on HandiSwage™ Hand Swager

Alert your customers. Atlantis Rail is offering a special rebate on the HandiSwage™ Hand Swager. If your customer purchases \$1000 or more of HandiSwage™ material, they are eligible to receive a rebate for the purchase price of their HandiSwage™ Hand Swager. All they need to do is send in the mail-in-rebate form with the original proof of purchase from you, an Atlantis Rail Authorized Dealer. The form can be sent in by email, fax or mail. This offer is for "end users", so let your customers know about this amazing deal! For more information on this, visit our [online flyer](#).

### PRODUCT HIGHLIGHT Square Head Screws

## Square Bit Screws

### Transition to Square Bit Screws

Atlantis Rail is constantly changing and adding products based on customers needs. After hearing feedback from contractors and customers, Atlantis Rail has decided to change from phillips head screws to square drive screws and bits. This change was done to prevent the screws from stripping as they are driven into wood. Square screws will be included in the 2 packs and 10 packs of RailEasy™ Tensioners and Swivel Ends. The RailEasy™ Installation Tools will also include a square driver bit along with the phillips bit.

# SunRail™ Latitude

## Wood Handrail with Cable Infill

The SunRail™ Latitude System is comprised of mechanical swage tensioners riveted to 2" outer diameter stainless steel posts to allow for horizontal cable railing infill. These RailEasy™ Tensioners feature a round base and compression fitting which enables installers to cut cable on site, removing the hassle of pre-measuring and the cost of miscalculating dimensions. The top rail mounting plate offers easy installation with virtually no hardware obstruction and allows customers to select their desired top rail. The adjustable top rail mounting plate will be utilized in stair applications. Customers must supply their own hardwood top rail. For more on the SunRail™ Latitude System visit: [www.atlantisrail.com/sunrail-latitude](http://www.atlantisrail.com/sunrail-latitude)

## WATCH & LEARN

### Information & Installation Videos

We have informative cable railing video links on the Atlantis Rail website. The RailEasy™ Tensioner Installation video shows the easy steps to installing a RailEasy™ Tensioner. The Cable Railing "How To" video illustrates the installation process of the RailEasy™ Nautilus System. Use these as learning tools for your customers to see just how easy it is to install a cable railing system.

To view these videos, visit:

<http://www.atlantisrail.com/atlantis-rail-product-videos>

Atlantis Rail's HandiSwage™ website also features "How To" videos specific to our HandiSwage™ system. These videos show the step by step process of installing the HandiSwage™ Cable Railing System.

## TRAINING & INFORMATION

### AIA Continuing Education

We offer an AIA accredited continuing education course on cable railing systems!

This course provides an overview of general and specific cable railing requirements and best practices to ensure code compliance, maximize aesthetic effect and sustainable performance. It takes approximately 60 minutes and provides 1.00 AIA/CES Learning Unit. You can find the link to the "Training Center" under the "Support" tab or click on the link below. First time users must create a new account by simply filling in a few fields, including username, email address and creating a password.
