ATLANTIS RAIL LAUNCHES BILT APP FOR RAILEASY™ CABLE RAILING SYSTEM

Easy to follow 3D assembly instructions

Plymouth, MA, December 20, 2016— Atlantis Rail Systems has launched 3D assembly instructions for their RailEasy™ Cable Railing System on the BILT app. BILT is an intuitive and easy to use app for your mobile device and is free of charge to download. This application allows Atlantis Rail's Experts to provide 3D step by step instructions to their customers.

Atlantis Rail's customers can look forward to less issues leading to delays and fewer customer service calls by having the BILT app in their pocket. Not only does BILT provide the customer with all the steps to install a beautiful railing system, it provides estimates on time, tools needed, and the number of people needed to complete your job. Also it eliminates the need to hang on to paperwork by conveniently archiving all their product information, registrations, and warranties.

BILT is a revolutionary way of providing assembly instructions through a 3D and interactive format. The voice guide gives step by step instruction on the RailEasy™ components, how to plan and calculate and how to measure and install a RailEasy™ Cable Railing System. BILT gives time estimates, a list of tools needed and the number of steps. Visit your app store to download the BILT app for free. This app can be used on [Apple](#) and [Android](#) devices.

Atlantis Rail is a leading manufacturer of premium stainless steel cable railing systems. This innovative collection of low maintenance railings offers unobstructed views capable of fitting any indoor or outdoor, commercial or residential design. They are designed for assembly using a collection of patented railing fittings and components to allow for the delivery of a turnkey stainless steel railing system at a low cost.

###
