ATLANTIS[®]
RAIL SYSTEMS

Installation Instructions

All product installation instructions for cable railing and railing systems have been revised for better install experience. Installation instructions will provide detailed instructions in building your new cable railing. All installation instructions can be found on the website in the “LINKS” section of each individual product web page or on the “SUPPORT PAGE”. www.atlantisrail.com

NEW PRODUCTS

Introducing the New NOVA II System

Cable Railing with Powder-Coated Aluminum Posts & Rails

We have developed a new aluminum post cable railing system. The NOVA II System features powder-coated aluminum posts, handrails, foot rails and horizontal cable infill. The cable infill utilizes HandiSwage™ fittings with 1/8” cable.

COLOR SELECTION

Black, White & Bronze

NOVA II is a completely off-the-shelf system with minimal components. There are 4 post kits which include a universal and corner post for level sections and a top/mid and bottom post for stair sections. The top and bottom rails are packaged together in 6’ lengths. Each post and rail kit includes everything needed for installation, excluding post mounting hardware.

For more information about the NOVA II System, visit: www.atlantisrail.com/nova-cable-railing-system

SURFACE MOUNTED POSTS, CABLE STABILIZER & RAIL SETS

The NOVA II System is surface mounted using 4 lag bolts. A post skirt slides over the post to cover the mounting flange and a post cap mounts to the top of each post to give it a finished look. All post kits are engineered for a 36” and 42” railing system. A Cable Stabilizer comes standard with the top and bottom rails for level or stair sections. Railing spans less than 4 feet do not require a cable stabilizer. All posts and cable stabilizers come ready to install. The railing system comes complete with top and bottom rails which are packaged together in 6’ lengths. Our patented grommet system is included.

NOTE: When cutting rails, trim from both ends evenly.

All aluminum railing components are powder-coated to the 2604 spec. NOVA II has been independently tested and documented to meet IRC standards.

HANDISWAGE MOUNTING HARDWARE

This aluminum cable railing system utilizes 1/8” cable and HandiSwage Studs, Tensioners and a special RailEasy™ 1/8” Stud. The HandiSwage Studs are easily attached to the cable with the Hand Swager.

NOTE: Do not install within (1) one mile of salt water.

New Products

Now Available!

HandiSwage Cover Nut Sets

NEW

C0309 Series

Designed for use with HandiSwage Studs and a RailEasy Stud Assembly. Cover Nut Sets are perfect for cable railing systems where “through-post” hardware is desired for minimal obstruction. Affix the tear drop cover to the end of each swage stud for a finished look. Each set includes a plastic cover, stainless steel washer and nut. Cover Nut Sets come in 10 packs and available in White, Brown, Metallic Silver and Black color options.

RailEasy Mid Post

NEW

S0973-MP Series

The RailEasy Mid Post is designed specifically for use where post to post measurement spans over 4'. This stock mid post allows you to provide a structural mid support to our 2” top rail where spans are over 4 foot. The mid posts are available in 36” or 42” stanchions pre-drilled to work with our standard 3” spacing. The mid post should never be used in spans over 8'. The mid post includes cable grommets. Deck fasteners not included.

Material: 316L Stainless Steel
Finish: Polished

The mid posts are a stocking item and ready to ship.

Las Vegas Warehouse

Las Vegas Warehouse increases speed to market and provides fast and accurate shipping to the Western United States.

2,000
Plus SKU's

We here at Atlantis Rail/Suncor Stainless have been working hard in 2017 to ensure all our customers get quality product as quickly as possible. We opened our Las Vegas facility to insure our Western United States customers receive the same great service. With a warehouse full of 2,000 plus SKU's utilizing state of the art technology and manufacturing capabilities, we will be able to get our product to the Western United States in a fraction of the time.

We are now ISO certified to ISO 9001:2015 standard.
