HandiSwage™
The Spectrum System is available using a 5/32” or 1/8” diameter cable and HandiSwage™ Studs, making it one of the simplest and most economical cable railing systems available. All the studs, cable and accessories are made from electro-polished 316L stainless steel for maximum corrosion resistance and durability. For a finished look, we offer a variety of cover nut sets including multiple styles and colors.

* “XX” in the part number is the color designation. Replace with “BK” for black, “MT” for metallic silver, “WH” for white, “BR” for dark brown or “SP” for one of the special colors.

For more information on Spectrum post and stabilizer kits, see the Atlantis Rail Stock Post Reference Sheet on page 39.
**ADA HANDRAIL MOUNTING BRACKET**
The ADA Handrail Mounting Bracket features a clamp that fits onto a Spectrum post and allows for the attachment of rail end and mid support fittings. These supports accept a 1-1/2” stainless steel tube which enables the Spectrum System to be ADA compliant. The clamp is powder-coated to match the post color.

**REINFORCING CHANNEL**
This channel is used in applications where the handrail needs additional structural reinforcement. It fits over the Top Mounting Plate Assembly and the screws can be mounted through the slots running the length of the channel and into the handrail. The Reinforcing Channel is powder-coated to match the post color and available in 48” lengths and can be cut to size. The 36” surface mount post requires a spacing block (S0904-XX58”). Spacing block sold separately with fasteners.

*We do not recommend the use of artificial lumber.*
*Use at the installer/end users’ own risk.*

**WIDE MOUNTING PLATE**
The Wide Mounting Plate is twice the width of the standard mounting plate and is used in applications where a wider top rail is desired. The plate is powder-coated to match the post color. Additional wood screws are included.

*“XX” in the part number is the color designation. Replace with “BK” for black, “MT” for metallic silver, “WH” for white, “BR” for dark brown or “SP” for one of the special colors.*
SPECTRUM GLASS SYSTEM

GLASS INFILL OPTION

The Spectrum Glass System utilizes surface mounted square posts with pre-installed glass panel connectors which accept 3/8” to 1/2” glass infill. Posts are available in heights of 36” and 42” and standard colors of black or metallic silver. Special colors and uncoated posts are also available. Ask your Atlantis Rail Account Manager for details.

- Customers must source their own hardwood top rail (minimum of 2” x 4”).
- Atlantis Rail does not offer glass panels as part of the Spectrum Glass System.
